### ***New Rejection***

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent

Art Unit: 1795

granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

7. Claim 33 is rejected under 35 U.S.C. 102(e) as being anticipated by Auch et al. (US20030227255).

Auch et al. discloses a device comprising a substrate having an active region defined thereon, the active region comprising at least one active component, the at least one active component including patterned electrodes and a metal layer located in the active region the metal layer being in direct contact with the at least one active component, wherein the metal layer consists essentially of aluminum and is capable of absorbing water and oxygen (paragraph 0008).

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
